**TERMINAL DISCLAIMER UNDER 37 CFR §§3.73(b) AND 1.321(b)**

Pursuant to 37 CFR §3.73(b), the undersigned certifies, to the best of his knowledge and belief, that that the above application is unassigned and that title is in the inventors.

The undersigned is empowered to act on behalf of the inventors.

Pursuant to 37 CFR §1.321(b), and to obviate a possible double patenting rejection, the inventors of U.S. patent application serial number 10/642,267 hereby waive and disclaim the terminal portion of the term of the entire patent to be granted upon the above-identified application subsequent to the expiration date of U.S. Patent No. 6,470,696, whereby the patent granted on this application and U.S. Patent No. 6,470,696 will expire on the same day, provided that any patent granted on the above identified application shall be enforceable only for and during such period that it is commonly owned with U.S. Patent No. 6,470,696.

The inventors do not disclaim any terminal part of any patent granted on the above identified application prior to the expiration date of the full statutory term of U.S. Patent No. 6,470,696 in the event that it later: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR §1.321(a), has all claims cancelled by a reexamination certificate, or is otherwise terminated prior to expiration of its statutory term, except for the separation of legal title as stated above. Assignee herein does not disclaim or otherwise affect any part of U.S. Patent No. 6,470,696.

Pursuant to 37 CFR §1.321(b), and to obviate a possible double patenting rejection, the inventors of U.S. patent application serial number 10/642,267 hereby waive and disclaim the terminal portion of the term of the entire patent to be granted upon the above-identified

application subsequent to the expiration date of U.S. Patent Application No. 10/356,606, whereby the patent granted on this application and U.S Patent Application No. 10/356,606 will expire on the same day, provided that any patent granted on the above identified application shall be enforceable only for and during such period that it is commonly owned with U.S. Patent Application No. 10/356,606.

The inventors do not disclaim any terminal part of any patent granted on the above identified application prior to the expiration date of the full statutory term of U.S. Patent Application No. 10/356,606 in the event that it later: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR §1.321(a), has all claims cancelled by a reexamination certificate, or is otherwise terminated prior to expiration of its statutory term, except for the separation of legal title as stated above. Assignee herein does not disclaim or otherwise affect any part of U.S. Patent Application No. 10/356,606.

This disclaimer runs with any patent granted on the above application and is binding upon the grantee, its successors or assigns.

Please charge any additional fees, or make any credits, to Deposit Account No. 06-1050, referencing Attorney Docket No. 09781-007002.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
